RESOLUTIONS

Public Health & Safety Committee
Ordinance #09-290

**ORDINANCE OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

**CREATING WILL COUNTY PUBLIC SWIMMING FACILITY
AND BATHING BEACH ORDINANCE**

WHEREAS, the Will County Board of Health has requested the County Board consider creating the Public Swimming Facility and Bathing Beach Ordinance, and

WHEREAS, a public hearing was conducted during the September 10, 2009 Public Health & Safety Committee to solicit public comment, and

WHEREAS, the Public Health & Safety Committee concurs with the Board of Health's request, and

WHEREAS, the County Board wishes to create the Public Swimming Facility and Bathing Beach Ordinance.

NOW, THEREFORE, BE IT ORDAINED, that the Will County Board officially creates the Will County Public Swimming Facility and Bathing Beach Ordinance as suggested by the Will County Board of Health, attached hereto, effective upon execution by the County Executive.

BE IT FURTHER ORDAINED, that the Preamble of this Ordinance is hereby adopted as if fully set forth herein. This Ordinance shall be in full force and effect upon its passage and approval as provided by law.

Adopted by the Will County Board this 17th day of September, 2009.

**WILL COUNTY PUBLIC SWIMMING FACILITY AND BATHING BEACH
ORDINANCE**

CHAPTER 1. PURPOSE

The Will County Health Department (the Health Authority) through an agreement with the Illinois Department of Public Health (IDPH) maintains and operates a public swimming facility and bathing beach program for the IDPH and is evaluated annually by the IDPH to determine compliance with the Illinois Swimming Facility Act 210 ILCS 125. Therefore, the purpose of this Ordinance is to establish a schedule of fees to be charged to offset the cost of operating the program, to regulate the inspections of such facilities, to provide for the incorporation by reference the standards of the Illinois Department of Public Health as set forth in its Rules and Regulations entitled "Illinois Swimming Pool and Bathing Beach Code" issued by the Illinois Department of Public Health and may be hereinafter amended or revised.

CHAPTER 2. ORDINANCE

RE: Will County Public Swimming Facility and Bathing Beach Ordinance.

WHEREAS, it is in the best interest for the health, safety and welfare of the People of Will County to have sanitary conditions in public swimming facilities and bathing beaches.

WHEREAS, the best way to ensure sanitary conditions in these facilities is to conduct regular inspections, and

WHEREAS, the costs of inspections by the Health Authority to regulate and supervise swimming and bathing facilities have steadily risen since the Health Authority began operating this program, and

WHEREAS, under the provisions of the Will County Board of Health by laws adopted April 10, 1973 and revised December 20, 2006 the Board of Health may request the County Board to pass ordinances permitting the charging and collection of such fees as may be necessary to finance selected services, and the promotion and protection of health and control of disease.

WHEREAS, in the best interest of the People of Will County, the costs for the above mentioned inspections and reviews of the public swimming and bathing facilities should be borne by the operator/owner of the facilities.

THEREFORE, BE IT RESOLVED BY THE COUNTY BOARD OF WILL COUNTY, ILLINOIS that the Will County Public Swimming Facility and Bathing Beach Ordinance be formulated to include the attached regulations.

CHAPTER 3. ADOPTION BY REFERENCE

The Illinois Department of Public Health, Division of Environmental Health: Swimming Facility Act 210 ILCS 125/1-125/28 and the “Illinois Swimming Pool and Bathing Beach Code” and any subsequent revisions thereto are hereby adopted by reference as Chapter 3 of this ordinance.

CHAPTER 4. PERMIT AND LICENSING PROVISIONS

1. **PERMIT FOR CONSTRUCTION OR MAJOR ALTERATION:** No public swimming facility shall be constructed, developed, installed, or altered in a major manner until plans, specifications, and other information relative to such swimming facility and appurtenant facilities as may be requested by IDPH are submitted to and reviewed by IDPH and found to comply with minimum sanitary and safety requirements and design criteria, and until a permit for the construction or development is issued by IDPH.
2. **LICENSE:** It shall be unlawful for any person to operate a public swimming facility or bathing beach within Will County in the State of Illinois, who does not possess a valid license issued to them by the IDPH per Section of 125/4 of the Illinois Swimming Act and Section of 820.100 of the Illinois Swimming Pool and Bathing Beach Code.
 - a. If construction or remodeling is required then a complete set of plans and equipment must be submitted to the IDPH for review.
 - b. Prior to approval of an application for license, the facility must be inspected by IDPH or its agent to determine compliance with the requirements and in accordance with the previously approved plans.
 - c. Applicable licensing fees must be submitted to IDPH as required by the IDPH Swimming Facility Act.
3. **ANNUAL INSPECTION FEE:** The annual inspection fees to be charged by the Health Authority in pursuance of its authority to inspect, regulate and supervise public swimming facilities or bathing beaches are indicated in Appendix A. The annual inspection fee shall be due no later than April 30th. All inspection fees shall be made payable to the Will County Health Department and this fee shall not be refundable.
4. **EXEMPTIONS:** The requirements of this ordinance and the applicable fees shall apply to all public swimming facilities and bathing beaches in Will County.

CHAPTER 5. INSPECTIONS

1. **INSPECTION FREQUENCY:** An annual licensing inspection of a public swimming facility or bathing beach shall be performed at a minimum as required by the agreement between the Health Authority and the IDPH to maintain and operate the program. Additional inspections of the facilities shall be performed as often as necessary to ensure health, safety and welfare of the People of Will County and to ensure compliance with the swimming facility and bathing beach requirements from the IDPH Swimming Facility Act 210 ILCS 125/1-125/28 and the Illinois Swimming Pool and Bathing Beach Code and any subsequent revisions thereto are hereby adopted by reference as Chapter 3 of this ordinance.
2. **ACCESS:** Representatives of the Health Authority, after proper identification shall be permitted to enter any public swimming pool, aquatic recreation facility or bathing beach at any reasonable time for the purpose of making inspections to determine compliance with this ordinance. The representatives shall be permitted to examine the records of the facility to obtain information on the facility's daily maintenance and operation.
3. **REPORT OF INSPECTIONS:** Whenever an inspection of a public swimming facility or bathing beach is made, the findings shall be recorded on the inspection report form used by the Health Authority. The inspection report form shall summarize the requirements of this ordinance. Inspectional remarks shall reference by item number the violation and the correction to be made. A copy of the completed inspection report form shall be furnished to the person in charge of the facility at the conclusion of the inspection or electronically transmitted in a timely manner. Alternate inspection forms and reports may be used provided they assure adherence to proper operation and sanitation principles. All completed inspection reports are public documents that shall be made available for public disclosure to any person who requests it according to law.
4. **CORRECTION OF VIOLATIONS:** The completed inspection report form shall specify a reasonable period of time for the correction of the violations found and correction of the violations shall be accomplished within the period specified, in accordance with the following provisions:
 - a. If an imminent health hazard exists, such as but not limited to immediate danger to health or safety, unsatisfactory bacteriological results or inoperable recirculation pumps/filters at the facility or any other condition as stated in Section 820.330 and Subpart E of the Illinois Swimming Pool and Bathing Beach Code, the operations shall immediately cease. Operations shall not resume until authorized by the Health Authority.
 - b. The completed inspection report shall specify a reasonable period of time for the correction of all other violations based on the seriousness of

violation. A follow-up inspection should be conducted to confirm corrections.

- c. Failure to comply will be handled as required by Illinois Swimming Act and the Illinois Swimming Pool and Bathing Beach Code.

CHAPTER 6. CURRENT RULES

This ordinance shall be regulated by the Health Authority in accordance with the current "Illinois Swimming Facility Act and Code" as established by the IDPH, and any subsequent revisions. Copies of said Code shall be on file in the County Clerk's Office and the offices of the Health Authority.

CHAPTER 7. REPEAL AND DATE OF EFFECT

This ordinance shall be in full force and effective immediately following its adoption and publication as provided for by law and in accordance with the law, and at that time all ordinances and parts of ordinances in conflict with this ordinance are hereby repealed.

CHAPTER 8. CONFLICT OF ORDINANCE, EFFECT ON PARTIAL INVALIDITY

In any case where a provision of this ordinance is found to be in conflict with a provision of any building, fire, safety, health ordinance or other code, existing on effective date of this ordinance, the provision which establishes the higher standard for the promotion and protection of the health and safety of the people shall prevail.

If any chapter, section, sub-section, paragraph, sentence, clause or phrase of this ordinance shall be declared invalid for any reason whatsoever, such invalidation shall not affect the remaining portions of this ordinance which shall remain in full force and effect. To this end, the provisions of this ordinance are hereby declared to be joint and severable.

CHAPTER 9. PENALTIES

Whoever violates any of the provisions of this ordinance, or refuses to comply with any lawful order or requirement of the Health Authority duly made in writing as provided herein shall, upon finding of guilty, be subject to a fine of up to \$500 for each and every violation; and each day after the expiration of the time limit for abating unsanitary conditions and completing improvements to abate such conditions as ordered by the Health Authority shall constitute a distinct and separate violation.

CHAPTER 10. INJUNCTIONS

The Health Authority may seek to enjoin violators of this ordinance. All moneys collected from fines under this Ordinance shall be deposited to the Will County Health Department.

APPENDIX A
FEE SCHEDULE

<u>SERVICE</u>	<u>FEE</u>
Swimming Facility Inspection Fee*	\$200
Additional Feature(s) Inspection Fee	\$50
Swimming Facility Sample Analysis Fee	\$20
Bathing Beach Inspection Fee	\$150
Bathing Beach Sample Analysis Fee	\$20

***Where there is more than one feature at the same location and under the same ownership, an additional flat fee of \$50 shall be charged.**

All fees shall be made payable to the Will County Health Department and this fee shall not be refundable.

Public Health & Safety Committee
Ordinance #09-291

**ORDINANCE OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

**AMENDING CHAPTER 53 OF THE WATER WELL PERMIT & WATER
SUPPLY ORDINANCE**

WHEREAS, the Will County Board of Health has requested the County Board consider amendments to Chapter 53 of the Water Well Permit and Water Supply Ordinance, and

WHEREAS, a public hearing was conducted during the September 10, 2009 Public Health & Safety Committee to solicit public comment, and

WHEREAS, the Public Health & Safety Committee concurs with the Board of Health's request, and

WHEREAS, the County Board wishes to make amendments to Chapter 53 of the Water Well Permit and Water Supply Ordinance.

NOW, THEREFORE, BE IT ORDAINED, that the Will County Board officially amends Chapter 53 of the Water Well Permit and Water Supply Ordinance with the amendments suggested by the Will County Board of Health, attached hereto, effective upon execution by the County Executive.

BE IT FURTHER ORDAINED, that the Preamble of this Ordinance is hereby adopted as if fully set forth herein. This Ordinance shall be in full force and effect upon its passage and approval as provided by law.

Adopted by the Will County Board this 17th day of September, 2009.

53.01 Short Title.

This chapter will be known as the Will County Water Well Permit and Water Supply ~~Chapter~~ *Ordinance*.

(Res. 89-189, adopted 7-20-89)

53.02 Purpose.

The purpose of this ~~chapter~~ *ordinance* is to regulate and supervise the construction of water wells; to require permits to construct *or deepen* water wells; to establish a fee *schedule for water well related charges* to offset the cost of issuance of such permits; to regulate the inspection of new and deepened water wells; to regulate the inspection of the sealing of abandoned water wells; to provide for the incorporation by reference the standards of the Illinois Department of Public Health as set forth in its rules and regulations entitled "*Public Area Sanitary Practice Code (77 Ill. Adm. Code 895)*," "*Illinois Plumbing Code (77 Ill. Adm. Code 890)*," "*Illinois Ground Water Protection Act (415 ILCS 55/)*," "*Illinois Water Well Construction Code (77 Ill. Adm. Code 920)*," "*Illinois Water Well Pump Installation Code (77 Ill. Adm. Code 925)*," "*Surface Source Water Treatment Code (77 Ill. Adm. Code 930)*," "*Drinking Water Systems Code (77 IL. Adm. Code 900)*," "*Water Well and Pump Installation Contractors License Act ILCS Ch. 225, Act 345*," issued by the Illinois Department of Public Health and as may be hereafter amended or revised and/or as may be amended by the County Board.

(Res. 89-189, adopted 7-20-89)

53.03 Definitions.

For the purpose of this ~~chapter~~ *ordinance*, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

ABANDONED WELL. *A water or monitoring well which is no longer used to supply water or which is in such state of disrepair that the well or boring has the potential for transmitting contaminants into an aquifer or otherwise threatens the public health or safety.*

CISTERN. *A cistern is a source of water supply developed by intercepting rainfall with roof surfaces.*

HEALTH AUTHORITY. That person or persons designated by the County Board of Health to enforce this ~~chapter~~ *ordinance*.

PERSON. An individual, or firm, partnership, company, trustee, association, or public or private entity.

PUBLIC WATER SYSTEM. A system for the provision to the public of piped water for human consumption, if the system has at least 15 service connections or regularly serves an average of at least 25 individuals daily at least 60 days per year. The term PUBLIC WATER SYSTEM includes any collection, treatment, storage and distribution facilities under control of the operator of such system and used

primarily in connection with such system and any collection or pretreatment storage facilities not under such control which are used primarily in connection with such system.

- (1) **COMMUNITY WATER SYSTEM.** A public water system which serves at least 15 service connections used by residents or regularly serves at least 25 residents at least 60 days a year.
- (2) **NON-COMMUNITY PUBLIC WATER SYSTEM.** A public water system that is not a community water system that has at least 15 service connections used by non-residents, or regularly serves 25 or more non-resident individuals daily for at least 60 days a year.

SEMI-PRIVATE WATER SYSTEM. A water system which is not a public water system, yet which serves a segment of the public other than an owner-occupied single-family residence.

WATER WELL. Any excavation that is drilled, cored, bored, washed, driven, jetted, dug, or otherwise constructed when the intended use of such excavation is for the location, diversion, artificial recharge or acquisition of ground water, except monitoring wells ~~for the division, artificial recharge or acquisition of groundwater, but does not include wells for the purpose of obtaining or prospecting for oil, natural gas, minerals or products of mining or quarry or for inserting media to repressure oil or natural gas-bearing formation or for storing petroleum products, natural gas or monitoring wells.~~

(Res. 89-189, adopted 7-20-89)

53.04 PUBLIC WATER SUPPLY USE.

In those locations where a public water supply is reasonably available, that supply should be the sole source of water for drinking or culinary purposes.

(Res. 89-189, adopted 7-20-89) Penalty 53.99

53.05 WATER SUPPLY LOCATION, CONSTRUCTION, AND REPAIR, AND ABANDONMENT.

(A) Water wells. Except as otherwise herein provided, the location, construction, repair, and abandonment, ~~and disinfection~~ of water wells, and the installation of water well pumps, shall be in accordance with the requirements set forth by the Illinois Department of Public Health, Illinois Water Well Construction Code (77 Ill. Adm. Code ~~92~~ 920), and the Illinois Water Well Pump Installation Code (77 Ill. Adm. Code 925), which are hereby made part of this ~~chapter~~ ordinance by reference. Copies of the said regulations shall be available in the office of the Health Authority. Wells that are abandoned shall be sealed in a manner prescribed by the Illinois Water Well Construction Code.

(B) Surface water supplies. All water systems which receive their source of water from ponds, lakes, streams, rivers, or other surface collectors of water shall be designed, constructed, and operated in accordance with the Illinois Department of Public Health Source Water Treatment Code (77 Ill. Adm. Code 930).

(C) Cisterns. Cisterns shall not be used for a water supply except where adequate ground water resources are not available. (Cistern water and surface water supplies shall receive treatment in

accordance with Illinois Department of Public Health Surface Source Water Treatment Code (77 Ill. Adm. Code 930)).

(D) Abandoned wells. Wells that are not being used for their intended purpose and/or are in a state of disrepair as to present an endangerment to the underground aquifer must be properly sealed in a manner prescribed by the Illinois Water Well Construction Code (77 Ill. Adm. Code 920). Abandoned well sealing activities must be inspected by the Health Authority. The applicable fee (see fee schedule) shall apply for each well abandonment inspection. The appropriate well abandonment documentation must be submitted by the licensed well contractor within 30 days following the well abandonment.

(E) Temporary well seals. A well may be placed into a state of temporary abandonment under the written approval of the Health Authority. Wells approved for temporary abandonment must have: the pump and drop pipe removed, the water line from the house to the well cut off and capped, be disinfected, and have either a plastic cap glued to the casing or be welded shut depending on construction. The casing must then be painted a conspicuous color and protected from damage. Wells not meeting current well construction and location requirements will not be considered for temporary abandonment. A well may be kept in a state of temporary abandonment for no longer than 12 months. An extension of 12 additional months may be approved if a date can be provided in writing when the well will be placed back into service.

(F) Existing wells. Any wells being used which are not compliant with current local and state requirements may remain in use until work is required to maintain acceptable operation, at which time they must be brought into compliance. Buried well seals must be eliminated and a pitless well adapter installed at such a time when the buried seal is accessed for any reason. Pit wells must be eliminated and the well brought into compliance at such a time as the well pit indicates water inundation.

(G) Homeowner well abandonment. An individual who is not a licensed well contractor may engage in well sealing activities in accordance with paragraph D of this Section and provided the well is located on land which is owned or leased by such individual and is used by such individual for farming purposes or as such individual's place of abode, provided a written request is made to the Health Authority prior to commencement of well abandonment indicating acceptable methodology.

(H) Supplemental Wells. Construction of supplemental wells shall not be approved on property connected to a community water supply except as approved by the operator of the community water supply. The appropriate back flow prevention device or check valve must be installed and inspected by a licensed plumbing professional who is certified for such an inspection in accordance with the Illinois State Plumbing code.

(I) Geothermal wells. All closed loop or open loop geothermal wells shall be constructed by contractors meeting all applicable licensure and certification requirements within the State of Illinois.

(Res. 89-189, adopted 7-20-89) Penalty 53.99

53.06 DISINFECTION AND ANALYSIS.

~~Owners of newly constructed wells or other types of water supplies which supply a semi-private water system shall have the water from their semi-private water supply analyzed and approved by either the laboratory of the Illinois Department of Health or a laboratory approved by the Illinois Department of Public Health before the well or other water supply is placed into service. A copy of the analysis shall be filed with the Health Authority. The water obtained from a surface water supply shall meet the nitrate, turbidity, and bacteriological requirements contained in Sections 900.50, 900.60 and 900.70 of the Drinking Water Systems Code (77 Ill. Adm. Code 900), and the water obtained from a well shall meet the nitrate and bacteriological requirements of Sections 900.50 and 900.70 of the Drinking Water Systems Code.~~

All components of a new water well construction and/or modifications shall be thoroughly disinfected with a strong chlorine solution which will yield a dosage of at least 100 parts per million to the water in the well and piping system. After purging the water system of any chlorine residual, a water sample shall be taken and analyzed by a certified laboratory and satisfactory results obtained prior to utilizing the water system for drinking and culinary purposes. All fees for samples analyzed by the Health Authority must be paid in accordance with the fee schedule. A copy of the analysis shall be filed with the Health Authority. The water obtained from a semi-private water supply shall meet the nitrate/nitrite, chemical and bacteriological requirements of the Primary Drinking Water Standards (35 Ill. Adm. Code 611), and the water obtained from a private well shall meet the bacteriological and nitrate/nitrite requirements of the Primary Drinking Water Standards (35 Ill. Adm. Code 611). The water from a private water system, having surface water as its source, shall meet the nitrate/nitrite, bacteriological and turbidity requirements of the Primary Drinking Water Standards (35 Ill. Adm. Code 611).

(Res. 89-189, adopted 7-20-89) Penalty 53.99)

53.07 EXEMPTIONS.

The requirement for a permit in this chapter shall not be applicable to wells intended to serve a community water supply system, and to monitoring wells.

(Res. 89-189, adopted 7-20-89) Penalty 53.99

53.08 STORAGE AND WATER LINES.

A minimum storage capacity, excluding the water heater and on-demand systems, of ~~50~~ 10 gallons for each residence served, maintained at a minimum pressure of 20 pounds per square inch, shall be provided. All water lines from the well to the storage tank must be installed below the suspected frost line but not less than 42 inches below grade. All water lines must be installed in compliance with all applicable state and local plumbing regulations.

(Res. 89-189, adopted 7-20-89) Penalty 53.99

53.09 PERMIT REQUIRED.

(A) No water well shall be constructed or deepened in Will County, except in accordance with these regulations and it shall be unlawful to proceed with the construction of a water well without first obtaining a permit from the Health Authority. All wells and pumps shall be maintained in a safe condition by the owner. A non-community public water supply shall not be operated without first obtaining a permit from the Illinois Department of Public Health.

(B) Applications for permits shall be in writing and in such form that shall be prescribed by the Health Authority. Each permit must be accompanied by a site plan drawn to scale, including lot boundaries, private sewage disposal systems, public sewer and water lines (including storm sewers), buildings, driveways, underground and overhead utilities, and any other prominent landmark or fixture. Neighboring wells and private sewage disposal systems must also be identified when situated within a minimum of 150 feet from the proposed well.

(C) Each application for the construction or deepening of a water well shall be accompanied by the applicable permit fee ~~a permit fee of \$100~~ (see fee schedule) payable to the Will County Health Fund Department. This fee shall not be returnable in the event that an individual decides not to construct or deepen the water well. The applicable fee (see fee schedule) ~~A fee of \$25~~ shall be charged for the reissuance of any permit which has been voided for reason of being older than one year. At the time of permit issuance, fees (see fee schedule) for both the well inspection and initial water sample shall be paid.

(D) Variances. If circumstances exist which make it impractical to achieve full compliance with the requirements of this ordinance, an applicant may seek a variance from the Health Authority prior to the issuance of a permit. Such requests shall be made in writing, and include a detailed explanation, site plan drawn to scale, and variance fee (see fee schedule). The Health Authority shall notify the applicant in writing of its decision to either grant or deny the variance. If the variance is granted, the property owner for which the variance has been granted shall have the approved variance attached to the property's deed by the Will County Recorder of Deeds. Wells drilled under variance must have a second water sample taken no later than 60 days after the well is placed into active service. This second water sample is apart from the required initial sample taken immediately following well completion.

Any person aggrieved by the decision of the Health Authority rendered as the result of the variance request may file in the office of the Health Department a written request for a hearing at a time and place designated by the Health Director within thirty (30) days of the date on which the written request was filed. The petitioner for the hearing shall be notified of the time and place of the hearing not less than five (5) days prior to the date on which the hearing is to be held. If, as a result of facts elicited as a result of the hearing, the Health Director finds that strict compliance with the decision of the Health Authority would cause undue hardship on the petitioner, and that the public health would be adequately protected and substantial justice done by granting a variance, the Health Director may grant a variance and as a condition for such variance, may, where it deems necessary, make requirements which are additional to those prescribed by this Ordinance, all for the purpose of properly protecting the public health. The Health Director shall render a decision within ten (10) days after the date of the hearing

which shall be reduced to writing and placed on file in the office of the Health Department and a copy thereof shall be served on the petitioner personally or by delivery to the petitioner by certified mail.

(Res. 89-189, adopted 7-20-89) Penalty 53.99

53.10 REQUIRED INSPECTION AND VIOLATIONS

(A) The Health Authority shall be notified by telephone or in writing at least 48 hours prior to the commencement of any work to construct or deepen a water well for which a permit has been issued, or to seal a water well, boring, or monitoring well. The Health Authority shall be allowed access to any property for the purpose of performing inspection of water well construction or to inspect the sealing of water wells or to investigate abandoned wells.

(B) Violations. As determined on the basis of inspections, or other means, that a violation has occurred of any provision of this ordinance, the Health Authority shall give notice of such alleged violation in writing. A written response to the notice of violation must be received within 30 days with an explanation of the violation and a statement of corrective action to be taken. All corrective action must be accomplished in a reasonable amount of time.

(Res. 89-189, adopted 7-20-89) Penalty 53.99

53.11 LICENSING OF WELL DRILLERS AND PUMP INSTALLERS.

All individuals who construct water wells and install well pumps shall be licensed by the Illinois Department of Public Health in accordance with the Water Well and Pump Installation Contractors License Act (ILCS Ch. 225, Act 345, subscript 1 et seq., latest edition) (225 ILCS 345/)

(Res. 89-189, adopted 7-20-89)

53.12. REPEAL AND DATE OF EFFECT

This ordinance shall be in full force and effective immediately following its adoption and publication as provided for by law and in accordance with the law, and at that time all ordinances and parts of ordinances in conflict with this ordinance are hereby repealed.

53.13. CONFLICT OF ORDINANCE, EFFECT ON PARTIAL INVALIDITY

In any case where a provision of this ordinance is found to be in conflict with a provision of any building, fire, safety, or health ordinance, or other code, existing on effective date of this ordinance, the provision which establishes the higher standard for the promotion and protection of the health and safety of the people shall prevail.

If any chapter, section, sub-section, paragraph, sentence, clause, or phrase of this ordinance shall be declared invalid for any reason whatsoever, such invalidation shall not affect the remaining portions of this

ordinance which shall remain in full force and effect. To this end, the provisions of this ordinance are hereby declared to be joint and severable.

53.14 INJUNCTIONS.

The Health Authority may seek to enjoin violators of this chapter. All moneys collected from fines under this Ordinance shall be deposited to the Will County Health Department.

(Res. 89-189, adopted 7-20-89)

53.99 PENALTIES

Whoever violates any of the provisions of this ordinance, or refuses to comply with any lawful order or requirement of the Health Authority duly made in writing as provided herein shall, upon finding of guilty, be subject to a fine of up to \$500 for each and every violation; and each day after the expiration of the time limit for abating unsanitary conditions and completing improvements to abate such conditions as ordered by the Health Authority shall constitute a distinct and separate violation.

~~Any person violating any provision of this chapter, upon conviction, shall be fined not less than \$100 nor more than \$1000. Each day the violation continues shall constitute a distinct and separate offense.~~

~~(Res. 89-189, adopted 7-20-89) (Res. 89-189, adopted 7-20-89) Penalty 53.99~~

**Public Health & Safety Committee
Resolution #09-292**

**RESOLUTION OF THE COUNTY BOARD
WILL COUNTY, ILLINOIS**

Opposing Potential Overlap of Services for Will County Community Health Center

WHEREAS, the Will County Community Health Center has been providing preventative and primary healthcare services to the medically underserved people of Will County since 1995. It is the only Federally Qualified Health Center in Will County and provided more than 60,000 medical and dental encounters to 20,000 patients in 2008, of which 64% of these patients reside in Joliet. Joliet zip codes are a defined service area as recorded in the 330 grant. These services were delivered at the 33,000 square foot clinic facility at 1106 Neal Avenue on the Will County Health Department main campus in Joliet, and

WHEREAS, recently the Will County Community Health Center became aware that Aunt Martha's Youth Service Center, Inc. was seeking funding to provide primary healthcare services on the current campus of Silver Cross Hospital in Joliet. Aunt Martha's maintains several health centers in multiple Illinois counties outside of Will County. This proposed Aunt Martha's location is contained within the service area of the Will County Community Health Center. The service area is broadly defined as the area in which the majority of the Will County Community Health Center's patients reside. Health Centers are statutorily obligated to make services available to all residents of the service area, to the extent they are able, using available resources, and

WHEREAS, the Will County Community Health Center and Will County Health Department are both very concerned that any competing entity that is granted approval to operate within the service area of the Will County Community Health Center could pose a significant threat to its long term viability. The Will County Community Health Center is very proud of its work and accomplishments in the community and is being proactive to address this issue of potential service overlap.

NOW, THEREFORE, BE IT RESOLVED, that the Will County Board hereby shares the concerns of the Will County Community Health Center Governing Council regarding having competing Federally Qualified Health Centers being granted approval to operate within the same service area. The Will County Board and the Will County Executive are extremely proud of the achievements and strides made by the Will County Community Health Center in the Will County community and would encourage the Federal Health Resources and Services Administration to strongly consider how another competing Federally Qualified Health Center could very well jeopardize Will County Community Health Center's long term viability.

BE IT FURTHER RESOLVED, that the Preamble of this Resolution is hereby adopted as if fully set forth herein. This Resolution shall be in full force and effect upon its passage and approval as provided by law.

Adopted by the Will County Board this 17th day of September, 2009.
